## HOA Fencing Specifications

To provide further clarification to the Homeowners' Association (HOA) Declaration the following are the Board of Directors approved fencing specifications that must be met.

1. Fencing must be of an Iron or vinyl material and must have ability to see through. No privacy fences.
2. Fencing must be no higher than 54 inches.
3. Before purchasing or constructing fencing you must provide Board of Directors with cut sheets showing fencing materials and must show a plot map reflecting the design/layout of the fencing on lot.
